

BREATHTAKING HOUSE WITH SEA VIEWS IN VALLDEMOSSA

4.300.000

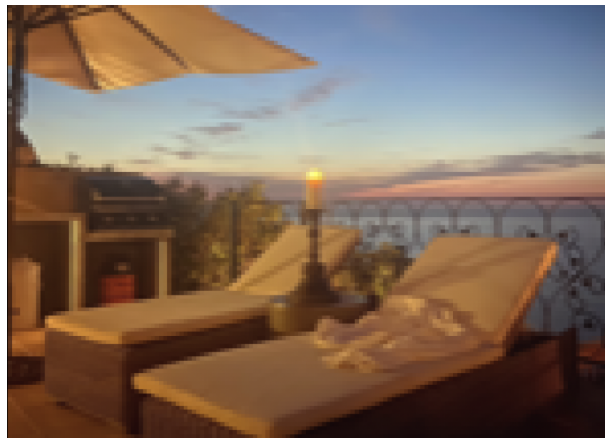

285 sqm

4

Valldemossa, Mallorca

This mesmerising house is located in an exclusive gated community called the George Sand in the heart of Valldemosa. The astonishing property is situated in the older part with a front line view from coast to coast. As of today the house has a living area of 250 sqm with 4 bedrooms and 2 bathrooms, the kitchen is fitted with Miele machines and an open fireplace in the living room.

However, this unique house would need a refurbishment and a plan is made by an architect to raise the living area to 450 sqm. There is a pool with the same amazing views as the house, overhanging the cliff side. On the Mountain there is a terrace built in with natural stone with the same fantastic views. In the Entree of the house there is a park made with art that make you want to stroll and read a book in the shadow - its a Dream Come True for the buyer that want to live close to the sky, mountain and overlook the

ocean.
