Palma, Santa Catalina

This unique apartment is located in the most sought-after location in Santa Catalina. A marvellous, luxuriously designed, and completely renovated apartment that covers most of the upper floor of a two-story corner house in the most beautiful tree-lined street in the heart of Santa Catalina. What was a three-bedroom apartment has been entirely transformed into an incredible voluminous space with high ceilings of 4.23 metres and beautiful exposed wooden beams with an artistic and extraordinary structure.

This loft-style apartment consists of large windows, which bring natural light throughout. The most exquisite materials have been carefully selected and executed throughout the apartment; stone, wood, steel, and glass are harmoniously combined to create a perfect balance while capturing and maintaining the authenticity, charm, and warmth that represent the essence of the Balearic Islands lifestyle.

The steel and glass wall of the kitchen facing the private terrace is designed to be fully opened and discreetly tucked away creating a natural flow between indoor and outdoor living.

The private terrace with its rainforest outdoor shower and partial shade offer welcome coolness during hot summer days.

In addition to the private terrace there is also a roof terrace with view over charming low rise houses with their tiled rooftops and green gardens as well as view towards the sea.
